EDUCATION

I have been pursuing my education at Oxford Matric Higher Secondary School under the State Board curriculum since kindergarden and am currently in my 12th grade. My journey at this institution has provided me with a strong academic foundation, instilled discipline. Being part of this school for such a significant period has also allowed me to actively engage in various academic, cultural, and extracurricular activities, shaping me into a confident and dedicated individual prepared to take on future challenges.

MY VISION

| | | |
|---------------------|--------------------------|-----------------------|
| Problem Solving | Communication skill | Pursue new skills |
| Journal Life | Critical thinking skills | Self-motivated |
| Understanding Money | Enhance My Music Skills | Avoid Procrastination |

PROFESSIONAL EXPERIENCE

| | |
|---|---------------------------|
| Church Guitarist & Keyboardist | Dec 2020 - Present |
|---|---------------------------|

Performed live in front of an audience of over 2,000 members, showcasing strong stage presence and collaboration skills as part of the band. Contributed to the creation of setlists, coordinated rehearsals, and performed a variety of musical styles, ensuring high-energy and impactful performances. Played and collaborated on music content for the Mountain Musicians video channel, creating engaging performances and music videos that reach a broad audience.

| | |
|---|----------------------------|
| Oxford Matric Higher Secondary School Musician | Dec 2023 , Jan 2024 |
|---|----------------------------|

Performed at school events for Christmas 2023 and Republic Day 2024, contributing to the school's cultural celebrations. Worked as part of a team to prepare and perform music, showcasing musical skills and dedication to representing the school during major events.

| | |
|---|-----------------|
| Website Development for School – Demo Project Newbie | Aug 2024 |
|---|-----------------|

Built a demo website for the school, designed to showcase its events, programs, and resources. Utilized web development tools such as [HTML, CSS, JavaScript] to create an interactive, user-friendly interface.
